

# Medipass Health Payments Platform

**Adrian Perillo**  
co-CEO

# Getting paid in healthcare is a painful experience.

## Over 40 different processes to get paid

- Unique forms, pricing, approval processes and payment terms
- Separate settlements

## Over 30% of total healthcare spend is processed manually

- Via email, paper or fax, costing \$10 per claim on average
- Major insurers seeking to improve the *experience of care* of their members

## Patients expect digital experiences

- Up-front cost transparency
- Seamless digital claim experiences
- Not being out of pocket if they don't have to

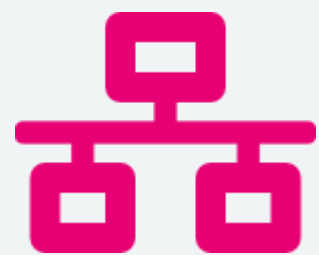

# Medipass is a Health Payments Platform

Optimised to enable providers to get paid quickly

Giving patients more control

Built to be integrated to anyone

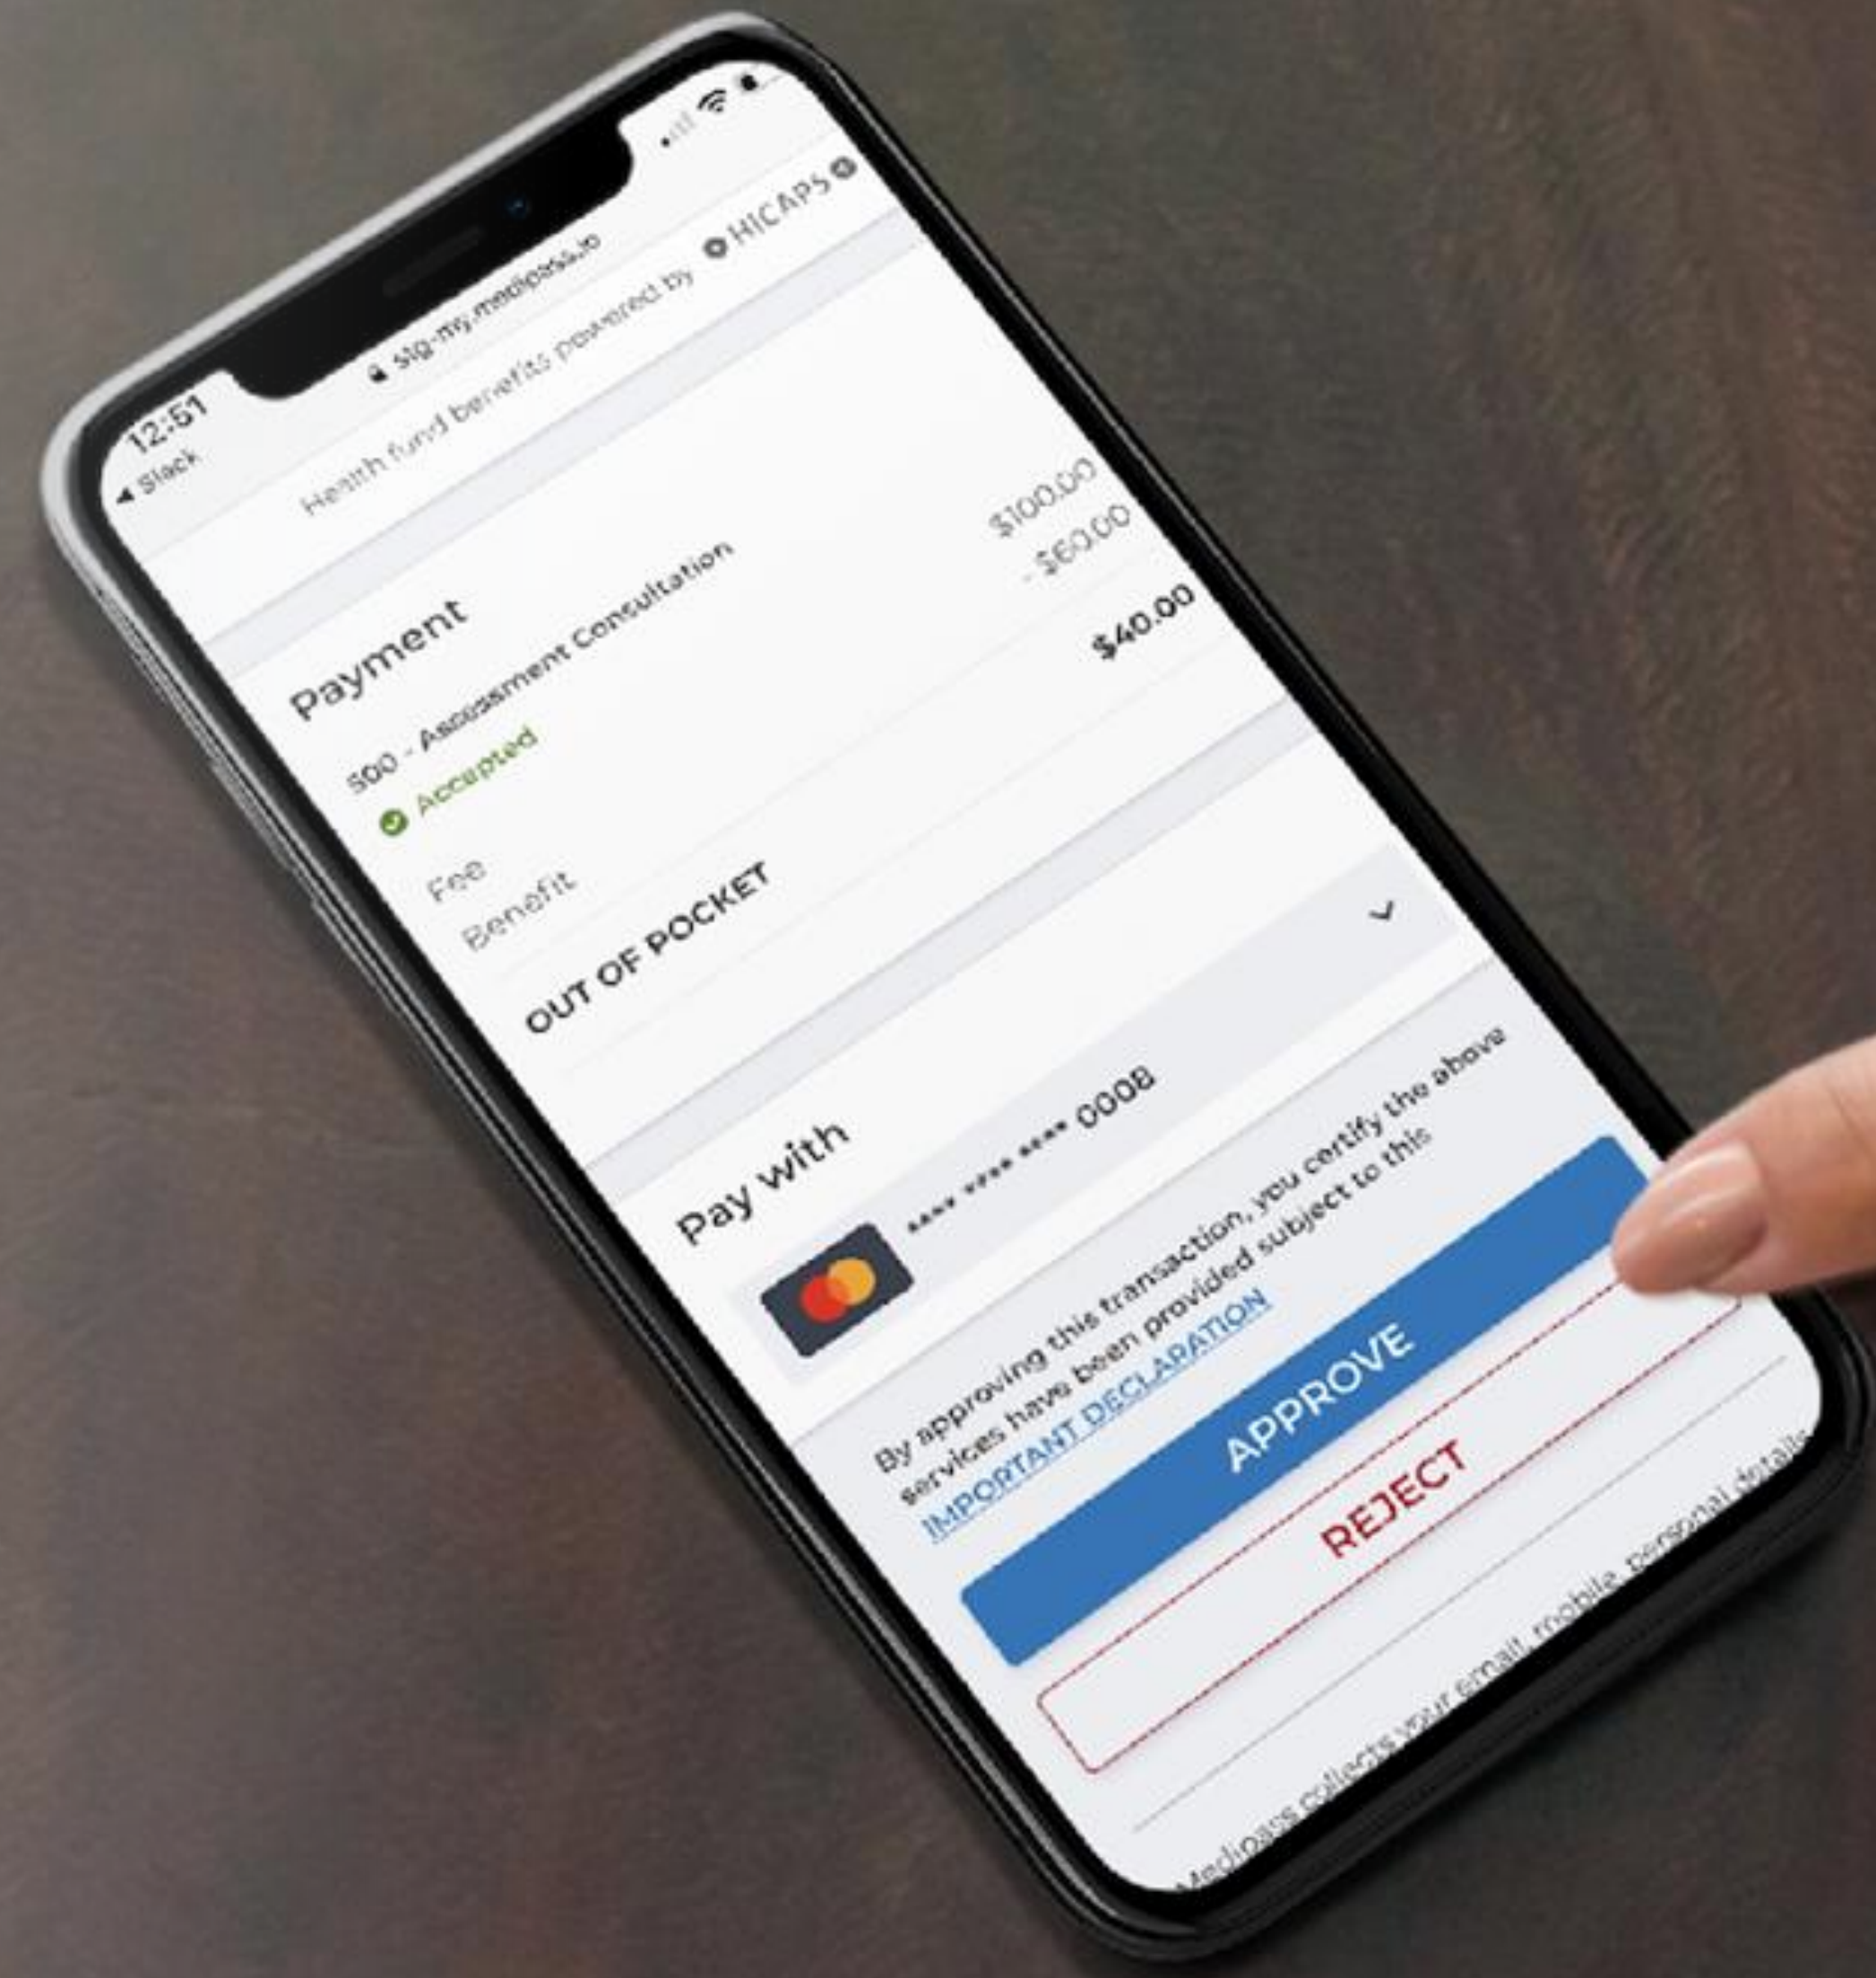

# At the heart of Medipass is our provider portal

- Simple claims submission, validation and payment.
- One place to raise claims for all insurers.
- Transactions can be raised directly from Medipass, or via your PMS.

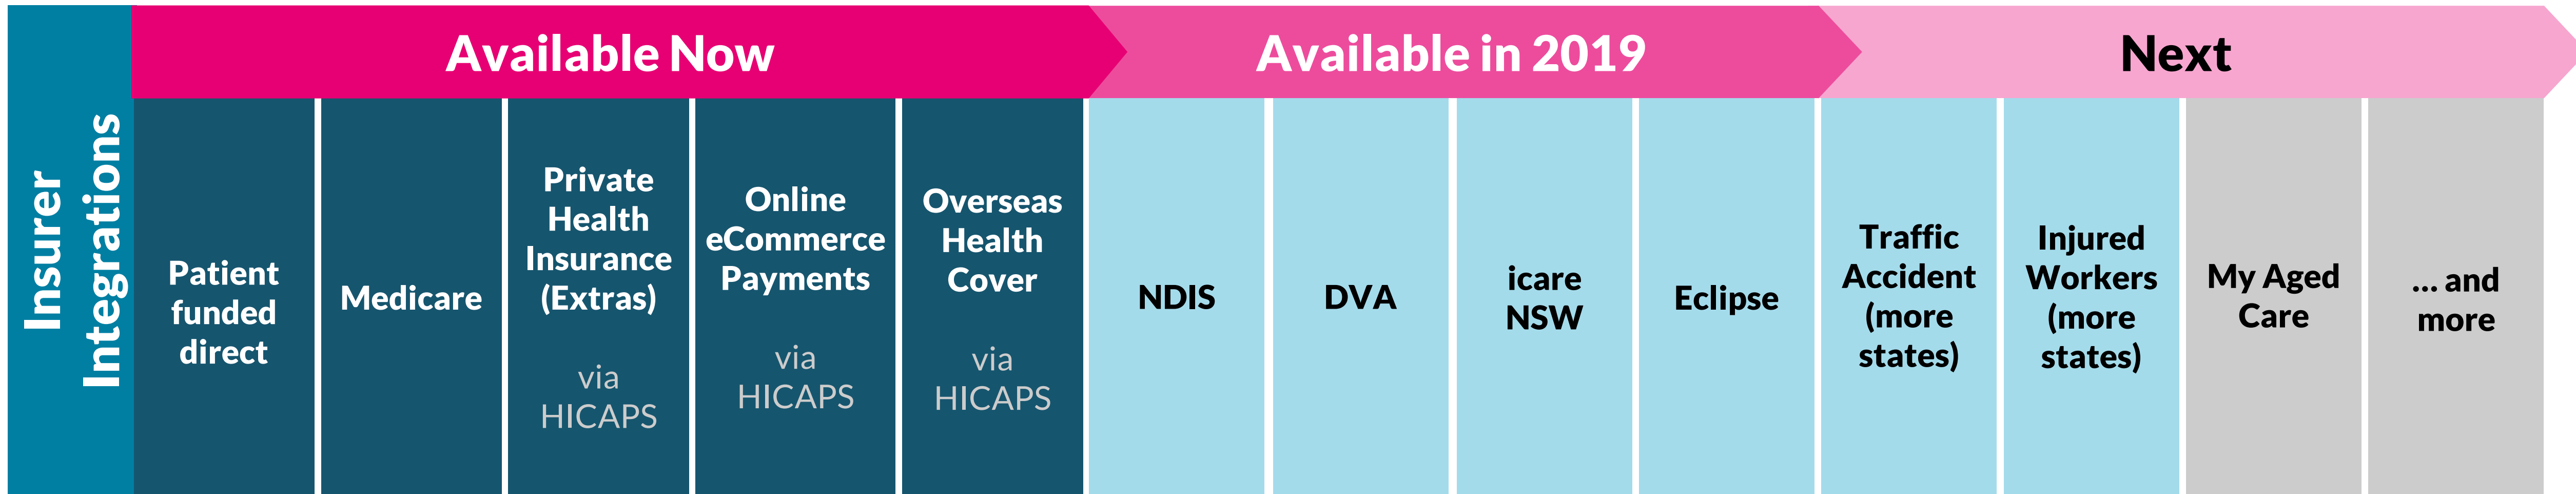

# Members can use their phone to view quotes, claims & payment requests

- Deliver greater transparency and control to patients.
- View quotes before you attend a service.

# Integrating all insurers and funders across Australia.

# How we can help

## Health care practitioners

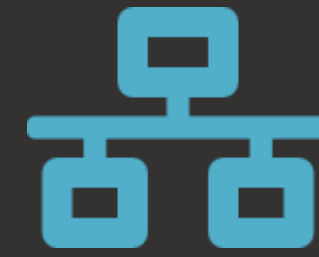

---

- Get paid faster, specifically for Medicare, Private Health Insurance, Overseas Students and icare NSW (coming soon)
- Including for Telehealth or Home Service scenarios.

## Practice management vendors

---

- Enable your users to access Medipass functionality right in your software, so you don't have to build each individual integration.

## Insurers

---

- Digitise your claim approval process to reduce cost as well as improve both member and provider satisfaction.
