

Why we need to know
about Africa's health.

How to objectively talk about African Innovation.
Statistics, Anthropology & Tech Trends.

40% of the world's working population
would be in Africa by 2035.

35% of the World's Largest cities
would be in Africa by 2100.

7 of these would be in Nigeria.

Antananarivo would be larger
than Melbourne.

We might all have to learn Yoruba.

The story of \$2 a day.

Amazon in Pharmaceuticals?

What does this all mean for Australia?

Can you predict the future of Africa's health?

Maslow's Hierachy of Needs.

Do you know these innovators?

Fydor.

Vula Mobile.

Ushadidi.

My favourite innovator of all
time.

Fatima Al-Fihri.

Thank You.
